PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 2+ years of experience building and running production SaaS, commerce and AI products with TypeScript, React.js, Node.js, Flutter and PostgreSQL. Built a multi-tenant commerce platform now live with 50+ sellers and a SaaS CRM used by 5+ client companies. Ships LLM features on Anthropic Claude and OpenAI (tool calling, MCP, RAG), and uses AI coding tools daily with every change reviewed before release.

WORK EXPERIENCE

AI Full-Stack Engineer | DiGi - Trend — Sep 2026 - Present

Rajkot, India | Node.js, TypeScript, React.js, Next.js, Express.js, PostgreSQL, Anthropic Claude

- Developed a WhatsApp AI assistant on Claude (Agent SDK + MCP) with 8 tools and 11 languages, now in pilot use.
- Secured message handling with HMAC-verified webhooks, de-duplication and one serial turn per user.
- Built a photography booking marketplace with customer, photographer and admin apps on PostgreSQL.
- Designed crew matching as one SQL query so no photographer is double-booked, with GST-aware pricing.

Founder & AI Full-Stack Engineer (Part-time) | Kairn Labs — Jun 2026 - Present

Remote | TypeScript, Hono, Node.js, React.js, PostgreSQL, Razorpay, Turborepo

- Founded Kairn Labs and led its D2C commerce platform to launch, with 50+ sellers live within 5 months.
- Engineered an append-only payment ledger with idempotency keys, so a retry never charges a buyer twice.
- Automated COD remittance matching, live courier-rate comparison, GST invoices and shipping labels.
- Created 12 storefront designs served from one build, with CI that deploys only the apps that changed.

AI Full-Stack Developer | Cipher Craft Pvt. Ltd. — Apr 2025 - Aug 2026

Rajkot, India | TypeScript, React.js, Next.js, Hono, Cloudflare Workers, Supabase, Flutter, OpenAI API

- Architected a multi-tenant SaaS CRM solo: V1 with 25+ modules shipped in 7 months, used by 5+ clients.
- Launched a marketing platform solo and grew it from 1 to 10+ customers on paid plans.
- Delivered an AI-assisted PDF editing module in 4 days, which won direct product work from the client.
- Partnered with the client on requirements, architecture decisions and delivery for both products.
- Built a Flutter app for a real estate platform with OTP login, APNs/FCM push and CallKit-style calls.
- Migrated 11 OpenAI call sites in a 20,000-line controller to the Responses API through one adapter.

Backend Developer Intern | Cipher Craft Pvt. Ltd. — Jun 2024 - Apr 2025

Rajkot, India | Node.js, NestJS, TypeScript, PostgreSQL, MySQL

- Diagnosed and resolved bugs in a 20,000-line production codebase, including race conditions.
- Collaborated through merge-request reviews and moved onto live client projects within 4 months.
- Promoted to AI Full-Stack Developer after 10 months, taking ownership of two client products.
